SECURITY

THITRONIK

T.S.A. wireless smoke detector

The T.S.A. wireless smoke detector can be integrated into the THITRONIK® security system and does not only warn of break-ins, theft and gases, but also of smoke and fire – a safety advantage, especially at night, as the sense of smell is impaired when you sleep. The alarm is not only triggered by the 85dB signal of the TSA, but also by vehicle indicators and horn. With Pro-finder, the vehicle owner and up to ten other people also receive an SMS notification. The TSA can also be used without the THITRONIK® system and is ideal for installation in rear garages when charging e-bikes.

Scope of delivery: TSA wireless smoke detector, operating instructions, mounting material, warning sticker

Technical data: Power supply 3V (1.6Ah) lithium battery, current consumption 13.2µA at 2.9V, alarm 85dB at a distance of 3 meters, temperature range -10 to +55 °C, dimensions (W x H x D) 50.8 x 42.5mm, weight 59g.

GasCubeTwin

Reliable warning of propane/butane gas (LPG) & anesthetic gases. Connection possibilities for two optional additional sensors. These detect gas concentration in the air just as effectively as the main sensor and offer additional safety in case of rising and falling gases. Cable length: 2,7 m. Three possible combinations of additional sensors:
1. 2 x sensor for detection of CO gas (carbon monoxide)
2. 2 x sensorfor detection of LPGgas/anesthetic gas
3. 1 x sensor CO gas + 1 x sensor LPG gas/anesthetic gas Color: matte anthracite

CAN bus wireless alarm systemfor Volkswagen Transporter 6.1/6, Fiat Ducato, Volkswagen Crafter/MAN TGE

• **Easy installation through vehicle-specific basic alarm kits**
• **No complex cabling required thanks to wireless sensors**
• **Combine optional wireless sensors, up to 55 sensors can be connected**

The basic alarm kits are optimally matched to respective vehicle type. Combine basic alarm kit with up to 55 wireless alarm sensors as required. Sensors send permanent radio signal to CAN bus adapter and thus ensure constant vehicle monitoring. Operate the alarm system with the remote control in your original vehicle key or via the
optionally available radio remote control. Secure windows, doors and backflow flaps of your motorhome or camper with the optional wireless alarm sensors.

Download assembly instructions here

VW T6.1/T6   VW Crafter/MAN TGE

Ducato (2011-2020)   Ducato (>2021)

Vehicle-specific CAN bus basic alarm kits

• **For Volkswagen Transporter 6.1/6, Volkswagen Crafter/MAN TGE, Fiat Ducato**
• **Can be combined with up to 55 wireless alarm sensors (optionally available)**
Suitable for: Volkswagen Transporter 6.1/6, Volkswagen Crafter/MAN TGE, Fiat Ducato
Technical data: Power supply: 12V, frequency: 433.92MHz, current consumption when alarm is switched on <15mA, operating temperature -30° C to +70° C, volume 118dB.
Scope of delivery: CAN bus basic alarm kit, vehicle specific cabling set, siren, mounting material, operating instructions.
Assembly: The external siren is mounted in the engine compartment using a vehicle specific bracket. The basic alarm kit is mounted in the dashboard, the wiring is connected to existing vehicle cables (in various locations).

## Wireless sensors can be combined as needed

Wireless window sensor for motorhome windows

① **Wireless tilting sensor** specially for hinged windows. Unobtrusive, no visual disturbance. The one-piece sensor is simply glued to the window pane. Compact size L x W x H: 42 x 30 x 13mm.   47499   69,90

② **Wireless window sensor with integrated pressure switch** No counter contact required thanks to pressure switch tech. Incl. 3 adapter plates to mount on windows from Dometic, Polyplast and other manufacturers. The adapter plate is screwed onto the window frame. Scope of delivery: Wireless window sensor, 3 adapter plates, battery, mounting acc.   47482   56,50

Wireless magnetic contact for protection of doors, back-flow flaps, roof hatches or windows

The wireless magnetic contact is screwed onto flap/door and frame. 2 pcs. incl. batteries and mounting acc.   47481   56,50

360° infraredindoorwireless sensor

• **Sufficient for monitoring the full living space of vans and small motorhomes without need for additional sensors**
• **Suitable for ceiling mounting, very compact and hardly visible**
PIR technology (passive infrared sensor): Sensors register infrared radiation or heat emitted by objects. When a sharp increase in room temperature is detected, the system triggers the alarm.   47483   77,--

Wireless motion sensor/ anti-theft sensor

• **Attached to objects outside the vehicle (e.g. bicycle). If the object moves, the main alarm unit is triggered.**
• **Concealed mounting possible**   47484   73,50

Wireless remote control

• **To activate/deactivate the alarm system for multiple users**
          47485   56,50

THITRONIK

WiPro III + WiPro III safe.lock
CAN bus wireless alarm systemsfor motorhomes

- Simple, intuitive handling: Vehicle locked/alarm armed
- Wireless magnetic contacts without cables!
- Staying in the vehicle possible without deactivating sensors
- Control of control panel via wireless vehicle key and hand-held wireless transmitter
- Easy add 2.0: Subsequent coupling of wireless acc. via handheld wireless transmitter or car doors
- Up to 100 wireless modules can be coupled
- Up to 75 meters wireless range (open field)
- Copy-proof thanks to over 4 billion codes
- Jamming detection "anti jamming"
- Remote alerting and detection w/ Pro-finder (opt.)

Network module for WiPro III

- **Controlling the WiPro III via Bluetooth**®
- **Control central locking via smartwatch/smartphone (only together w/ WiPro III safe.lock)**
- **Easy add 3.0: Subsequent pairing of wireless accessories via app**

This module couples the smartphone with WiPro III alarm system via app and Bluetooth in vicinity of motorhome, the authorized user can conveniently arm or disarm system at any time. With a WiPro III safe.lock, which also accesses the existing central locking system, vehicle can be opened and closed without vehicle key or hand-held transmitter. Network module can also be integrated if Pro-finder locating system is already installed.

Technical data:
Nominal voltage: 12/24V, BLUETOOTH® 5.0 low energy, temp. range: -20 °C to +80 °C, wireless range (open field): app. 10m Operating voltage: 12/24V, dim.: (W x H x D) 52 x 25 x 56mm, weight: 72g.

TSA wireless smoke detector

NEW

The TSA wireless smoke detector can be integrated into the THITRONIK® security system and does not only warn of break-ins, theft and gases, but also of smoke and fire – a safety advantage, especially at night, as the sense of smell is impaired when you sleep. The alarm is not only triggered by the 85dB signal of the TSA, but also by vehicle indicators and horn. With Pro-finder, the vehicle owner and up to ten other people also receive an SMS notification. The TSA can also be used without the THITRONIK® system and is ideal for installation in rear garages when charging e-bikes.

Scope of delivery: TSA wireless smoke detector, operating instructions, mounting material, warning sticker

Technical data: Power supply 3V (1.6Ah) lithium battery, current consumption 13.2µA at 2.9V, alarm 85dB at a distance of 3 meters, temperature range -10 to +55 °C, dimensions (W x H x D) 50.8 x 42.5mm, weight 59g.

① TSA wireless smoke detector, white	**80308**	**89,–**
② TSA wireless smoke detector, gray	**80309**	**89,–**
③ Adapter for wall mounting, white	**803080**	**7,–**
④ adapter for wall mounting, grey	**803090**	**7,–**

ℹ️ **Please note the following when installing the gas detectors:** Carbon monoxide (CO) is lighter than air, so install sensors above sleeping height. Butane/propane gas and anesthetic gases are heavier than air, so mount the sensors close to the ground.

Thitronik G.A.S.-pro III - CI bus compatible

REISE MOBIL INTERNATIONAL Testsieger 5/2020 ★★★★★

The G.A.S.-pro III is a modular gas warning system for permanent installation in your vehicle and reliably warns you of gas poisoning and anesthetic gas attacks, with integrated siren and wireless unit. The G.A.S.-pro III is available in two basic setups: w/ integrated liquid gas/anesthetic gas sensor or w/ integrated CO sensor. Both versions can be combined with an additional gas or CO sensor. Internal siren sounds at a piercing 94dB, and an integrated humidity sensor optimizes the already accurate measuring in the event of high humidity in vehicle or breathing in direct vicinity of sensor. Accurate temperature adjustment is mandatory. In addition, an alcohol filter function eliminates false alarms caused by alcohol in the air. Thanks to integrated wireless unit, the G.A.S.-pro III communicates w/ the WiPro III alarm system without additional wiring.

Technical data:
Power supply: 12/24V, current consumption: 9mA (CO)/26mA (liquid/CO gas), sensor inputs: 1 internal, 1 external, sensitivity: 50ppm (CO) 700/1400ppm (butane), sound pressure: 94db (internal siren), temp. range: -20°C to +60 °C, dim.: (W x H x D): 61 x 97 x 35mm, weight: 74g.

G.A.S.

Wall-mounted gas detector for propane, butane and anesthetic gases. The intelligent, dynamic temperature adjustment and the constant sensor self check ensures flawless function under a wide range of climate conditions. Easily and quickly connected to the vehicle electrical system, G.A.S. warns you in an emergency with its 82dB loud alarm.

Technical data: Power supply: 12/24V DC, current consumption: approx. 28/15mA, volume: 82dB at 1m, temperature range: -20 to +80 °C, dimensions: 30 x 88 x 26mm (W x H x D), weight: approx. 35g

Scope of delivery: G.A.S. with integrated siren, connection cable 12/24V, operating instructions, warning sticker, mounting material.

G.A.S.	80306	109,–

CARBEST

① GasStick - USB gas detector

• **Warns of propane/butane gas (LPG) and anesthetic gases**
• **Easy installation via USB port in the vehicle**
• **Very low power consumption: Standby: 20mA / alarm: 22mA**

The extra compact GasStick is supplied w/ power via USB port (USB 2.0) in vehicle and reliably warns of propane, butane gas (LPG), anesthetic gas thanks to extremely high quality and small MEMS technology (Micro Electro Mechanical Systems). An integrated LED indicates the device status. Acoustic warning signal: approx. 70dB. Minimalistic design and uncomplicated installation make the GasStick a mobile gas alarm for most energy sources with a USB connection. Insensitive to temperature fluctuations and humidity. Dim.: L x W x H approx. 77 x 28 x 10mm.

80267	**74,95**

② GasCube - Gas alarm with fine design

• **Warns of propane/butane gas (LPG) and anesthetic gases**
• **Visual and audible indication of operational readiness, calibration phase and alarm**

Fixed connection to 12V on-board power supply. Pressure switch. Ready for operation after app. 3mins. With high sensitivity sensor and 80dB loud siren. Temperature controlled sensor that works reliably even above 25°C. Power consumption in standby: 100mA, power consumption in alarm: 180mA. Mounting: approx. 100cm above the ground. Dim.: 55.6 x 86.7 x 24mm.

Color: matte white	802482	64,95

3-Sicur gas alarm

Gas alarm for recreational vehicles with a highly sensitive sensor that can detect propane/butane, carbon monoxide and anesthetic gases. The device automatically calibrates itself and emits an acoustic signal in the event of an alarm. A buffer battery (not included) guarantees functionality even in the event of a power failure on board. 3-Sicur can be used mobile or with a permanently installed device. It is equipped with a single button for power on, power off, test and reset, LED indicator lights and a 12V plug.   **802010**   **99,90**

Brown	**802060**	**146,–**

AMS®

12V

MADE IN GERMANY

AMS gas combination alarm device compact

- Ideal for use in caravans, motorhomes or truck cabs with small room volume
- Warns for liquid and anesthetic gas
- For detection of propane, butane, methane and anesthetic gases (KO gas attack)
- Dangerous anesthetic gases are detected even at lowest concentrations, well before they develop their anesthetic effect
- Low power consumption in normal operation of app. 90mA, 12V

Response waves
Butane approx. 0.4% / propane approx. 0.5% / methane approx. 0.8% / anesthetic gas from approx. 100ppm.

Display: Yellow LED = start-up phase / green LED = operating display / red LED = (3 x) for alarm message, acoustic warning signal via electric siren with a volume of 85dB (A) Dimensions: W 115 x H 90 x D 30mm. **80210** **132,--**

80300 **24,90**

LINNEPE

12V

TriGas alarm for propane/butane/KO gas

- Warns for anesthetic gases
- Visual and audible indication of operational readiness, calibration phase and alarm

Fixed directly to surface-mounted battery. Pressure switch. Ready for operation after approx. 1min. With high-sensitivity sensor and approx. 80dB loud siren. The TriGas alarm checks sensor function each time it is switched on and automatically calibrates itself to ambient air and temperature. Intelligent electronics carries out following steps every 40sec. performs calibration check and adjusts it if necessary. TriGas alarm has temp. control and compensates for differences so detection of dangerous gases also works reliably at temperatures above 25°C. LED display: Green (flashing) = calibration phase, green (continuous) = everything OK, red (flashing) = 20sec. Pre-alarm without sound, red (continuous) = alarm + continuous alarm sound (approx. 80dB)

Door safes

For Fiat Ducato
Can be mounted on driver's or passenger's door of original Fiat cab doors from YOC '06 (type x250 and x290 possible). Original attachment points of the map pocket located there are used for this purpose. Provides space for a 15-inch notebook. Secured with 3-bolt locks. **2006 – 08/2019**
Dims. H 330 x W 550 x D 140mm, weight approx. 7.0kg.   **471346   322,50**

09/2019 – 09/2021
Dimensions H 525 x W 135 x D 325mm, weight approx. 8.0kg.   **471348   322,50**

>09/2021 (only for passenger door)
Dims. H 265 x W100 x D 115mm, weight approx. 4.2kg.   **471349   249,–**

Ford Transit >06/2019 (passenger's side)
Specially developed for passenger door of Ford Transit from YOC 06/2019. Safe is mounted in door compartment w/ a mounting plate that can be locked and is not visible from the outside. Lid is protected from prying because there are no attachment points. Safe is equipped with a 3-bolt lock with 7 tumblers. External dims: WxHxD 275x70x165mm, weight: approx. 3.5kg.
                  471350   **249,–**

Puncture protection plate for Eurochassis door handles such as Fiat Ducato, Citroën Jumper, Peugeot Boxer >2006
The stab protection plate is mounted between the door handle and the vehicle body. Suitable for driver, passenger door and sliding and rear door. Prevents locking mechanism from being pryed open under door handle (e.g. with a screwdriver). Made of robust stainless steel, precisely fitting the contour of the handle shell modeled. Fastening via the mounting holes of recessed grip, no separate holes in the door are necessary.

Scope of delivery: Two plates (top/bottom) in a set for one door   **47010   33,90**

Scent remover special cleaning foam – For pretreatment

- Very adhesive effect foam
- Simplest handling
- Safe for electronics, plastic, rubber and paint

Danger
H222, H229

Strongly recommended before using any marten repellent! Removes scents of the marten. This means that a risky engine wash can be avoided. When engine is cold, spray entire engine compartment and inside of hood and fenders with entire contents and allow to react briefly. Simply rinse with water.

Spray can, 300ml, GP* 37,33 / 1 Liter   **903945**   **11,20**

Antimarten spray intense active ingredient - fragrance concentrate*

- Long-term effect, lasts up to 2 years
- Monthly scale for marking the next re-spraying date
- Clean engine compartment thanks to fragrance reservoir

Danger
H222, H229

Marten repellent for spraying. Concentrate w/ long-term effect, smells "dangerous enemy" to martens. Regular, targeted application to the enclosed self-adhesive "fragrance storage devices" is sufficient.

Spray can, 200ml, GP* 98,00 / 1 Liter   **9039452**   **19,60**

2-speaker ultrasound machine

- 2 waterproof Piezo speakers
- Ultrasound w/ frequency modulation
- Simplest installation (already wired)
- On-board power supply, maintenance-free
- Function indicator light, flashing or steady LED
- CAN data bus suitable, E1 marking of the KBA

With 12 V on-board power supply. Frequency-modulated ultrasonic sounds that signal "maximum danger" to marten through animal cries of fear and warning. Avoidance of sound shadows due to two loudspeakers. Ideal for narrow & compactly installed engine compartments. Note: Ultrasound does not penetrate matter. **Technical data:** Radius of radiation: 360°, angle of radiation: 2 x 160°, sound pressure: approx. 105dB   **9039453**   **116,--**
STOP&GO Accessories:
Mounting bracket:
- For all STOP&GO marten repellent devices
- Simplified installation of all STOP&GO devices
- Mounting of marten repellent device in engine compartment w/ only one screw
- Individual alignment of ultrasound
- Mounting material included

    9039459   9,70

High-temperature protective hose
- inner diameter 12.50mm
- **Packed in tubes of 4 x 0.50** Universally applicable fiberglass aluminum flex hose for cables on catalytic converters, lambda sensors and soot particle filters. Extremely heat-resistant protective hose, effectively shields heat from up to 800 °C hot radiation sources, w/o internal heat build-up.

    9039457   32,95

Fragrance disc — Intense active ingredient — fragrance concentrate*

- Efficient for at least 6 months
- Tab for expiration date
- Can be stored unopened for approx. 3 years
- Without assembly

Attention

Scented disc with long-lasting effect, smells like a "dangerous enemy" to the marten. The simple fastening device with practical hook allows individual attachment. Can be used in car, house, garden or carport. Large evaporation surface provides intense release of fragrance. With only one fragrance disc it is possible to protect the entire engine compartment. Lasts for at least six months.

Danger: H317, H319   **9039451**   **17,40**

4B battery ultrasonic device

- Battery driven
- Lasts up to 24 months
- 2 waterproof Piezo speakers
- Super slim design
- Frequency modulation against habituation
- Function control lamp, flashing LED
- Waterproof according to IP65, E1 marking of the KBA

Highly effective ultrasonic device w/ battery operation. Frequency-modulated ultrasonic sounds that signal "maximum danger" to marten through animal cries of fear & warning. No habituation effect. Independent of on-board power supply due to operation w/ two 3-volt button cells (CR2477), long lasting approx. 24 months per battery set. Ideal for long-term parkers like classic cars, motor homes, exhibition vehicles or for carport. **Technical data:** Radiation radius: 360°, angle of radiation: > 170°, sound pressure: approx. 110dB

    9039454   **82,–**

Ultrasonic high-voltage device with six PLUS-MINUS CLIP stainless steel contact plates

- Sensor technology
- 12 Volt connection or battery operation
- 2 waterproof Piezo speakers (IP65)
- Frequency modulation against habituation
- Function control lamp, flashing LED
- Stainless steel contact plates in super flat slimline design
- E1 marking of the KBA

Clip fastening option of double-pole stainless steel contact plates makes installation easy & offers even more flexibility, especially for increasingly compact engine compartments. Connection to terminal 15 is omitted due to sensor technology. Thanks to a contact slide attached directly to the unit, the installation of a hood contact switch is also unnecessary.

Technical data: Radiation radius: 360°, angle of radiation: > 170°, sound pressure: approx. 110dB

7 PLUS-MINUS CLIP, with 12V connection	9039455	242,–
8 PLUS-MINUS CLIP, battery-operated	903946	242,90

Protection against martens by ultrasonic sounds

Marder-Frei Plus (12V power supply
Efficient and long-lasting protection against marten bites approx. 80dB sound pressure, 12-23kHz frequency in intervals. With function control LED. 12V DC, protection class IP 54

    903943   **20,95**

Marder-Frei Mobil (battery-driven)
approx. 80dB sound pressure, 23kHz frequency in intervals. Effective radius approx. 40sqm. With function control LED battery operation, 6 x AAA/Micro (not included).

    903944   **31,95**

*Handle biocides with care. Always read label & product information before use.
